Star Lovers

This report is designed exclusively for love relationships. The interpretation for David and Victoria uses a technique called 'Synastry' which is the branch of astrology dealing with relationships.

It should be pointed out that even the most unlikely love relationship can be made to work if both parties are prepared to put in the effort required. However, there are almost always some adjustments and compromises to be made in any relationship where there are two separate individuals with wills and personalities of their own.

Interpreting a relationship between two people is a complex business. A good analogy to this type of astrological assessment is the way you view a statue. Looking at a statue from the front gives you an idea of what it looks like from a single dimension. It is only by walking around it and viewing it from various points that you begin to see it as a multi-dimensional creation. This is when we can start to understand more about its total composition, what makes it what it is. So it is with the astrological assessment of a partnership.

Star Lovers is divided into distinct sections, each one examining the relationship from a different vantage point:

David's & Victoria's Relationship Potential as individuals and investigation of what each of you needs and expects from a partnership, as well as from a romantic and sexual relationship.

Characteristics you both share

Relationship Compatibility detailing how each of you perceives and experiences the other, examining the strengths and weaknesses of the relationship and pinpointing potential problems.

Each connection is given a Star Rating from one to five to show their relative importance. To the right of each pair of symbols, denoting the connection is a group of five stars, the more stars there are the more important the connection.

David's Relationship Potential

An astrological chart is divided into 12 'houses' each of which represents a different sphere of human life. The 5th, 7th, and 8th houses are concerned with relationship potential. Although these houses also have other meanings, here they are defined and interpreted as David's love relationships (5th), David's partnerships (7th) and David's sexual relationships (8th).

David's Love Relationships

The 5th house describes romance and courtship: the qualities you seek in a lover and in a love relationship. You may be attracted to different types of lovers who possess one or more of these qualities, but you are most likely to find true happiness with the one person who combines most or all of them.

Hot to trot

 5th

Leo 5th House Cusp

Proud, passionate and dramatic when it comes to matters of the heart, your love life is the stuff of soap operas. You like to take the lead and be the dominant one, both in, and out, of the bedroom. You're never short of admirers and your prowess between the sheets keeps them coming back for more, but competitive demands and your voracious appetite may make it difficult for you to remain faithful forever.

You treat your lovers well and will often demonstrate your affection in extravagant and expensive ways. However, since you take a lot of pride in your lover and your romantic escapades, woe betide anyone who takes your love for granted because, once your pride is hurt, you can sever a tie completely, no matter how much it may hurt you to do so.

You want someone who is romantic and will help set the stage with candlelight and flowers. You may often have to express appreciation to keep the gifts coming - but this is a very small price to pay for so much royal pleasure.

Sex slave

 5th

Virgo in 5th House

Often, at the beginning of a love affair, or when you're feeling unsure, you may sacrifice spontaneity for the security of knowing where you are going on a date and how you are going to spend each and every minute. Taken to extremes, sexual intercourse may feel more like a medical examination than an expression of mutual love. You also need to make sure you don't let your critical eye prevent you from letting love into your heart.

However, when you find your groove with a lover, you take an inordinate interest in doing every little thing just perfectly. You'll notice the details, find your lover's erogenous zones, then set about discovering how, and when, to make their toes curl with delight. In fact, you often gravitate to a position of servitude, where satisfying the needs and desires of your lover becomes a source of great pleasure for you. Of course you need to avoid becoming a doormat, or going on automatic pilot where concentration on technique leaves little room for love to work its magic!

Your lover will be practical and systematic. There may not be a great deal of spontaneity in your love relationship, but there is a sense of security in knowing where you are going on a date and how you are going to spend each minute.

Addicted to love

5th House Ruler Sun in 12th House

You need to be far away from the madding crowd before you can feel comfortable about getting up close and personal. Self-sacrifice in love is possible and you may fall in love with someone in an institution.

Your ability to see the good in people that others miss could lead you into love affairs with individuals on the fringes of society. However, you need to be careful not to let your longing for an elusive, ideal love cloud your ability to appraise things clearly. While sweaty reality may be at odds with your romantic ideals, once indulged, you may find it hard to say no.

You may find secrecy romantic, and be drawn into clandestine love affairs, enticed by the mystique of secret lovers, or lovers who keep secrets well hidden. If not, you may enjoy digging beneath the surface of things to unravel the mysteries.

Easy come easy go

No Planets in the 5th House

While romance and sex is important to you, it is not a big deal, nor does it occupy as much of your time and energy as it does for some. Your love life is subject to periodic change and upheaval but your real priorities are often elsewhere. You may find that the pursuit of sensual pleasure actually takes you away from those activities that you find meaningful and so, while you'll put up with occasional disruption in this area of your life, when they eventually settle down you're usually keen to get on with other things.

You are not as particular about what you like romantically as some, consequently you are more than willing to compromise with your lover. You find it relatively easy to get satisfaction and pleasure from your lovemaking and are willing to make the adjustments necessary to achieve your ends.

David's Partnerships

The 7th house describes marital partners and other close, one-to-one relationships. Courtship (5th house) can lead to partnership, but the 7th house assumes a close, constant contact so it is more difficult to escape potential problems. For that reason, they are more fully addressed here.

When David's love affair shifts to a partnership the emphasis of his relationship changes, according to characteristics described by the signs and planets of the 7th house, as well as the position of the house ruler, outlined below.

Beauty and the beast

Scorpio 7th House Cusp

Since you are very tactile and sensual when it comes to your personal relationships and encounters, you need someone with whom you can be very up close and personal. You want deep, meaningful companionship, loyalty and sex - and lots of it. In fact, sex could well be a source of conflict; although there may be times when it is the one thing you have in common, providing the glue that keeps you together. Either way, issues of sex, intimacy, power or trust will have to be dealt with in your close personal relationships.

Since sex is so important, and you are not easily swayed, when you do start something, you will often stay and work at a bad relationship rather than end it. Therefore, the times when endings are inevitable often bring about deep-rooted change in your life. In fact, it is through your relationships and the important people in your life that you experience periods of rebirth and renaissance. Your partner often acts as an agent for change and transformation in your life. You are drawn to individuals who are intense, charismatic, powerful and somewhat secretive. Individuals who may be cool and aloof at first meeting, but deep, dark, mysterious and occasionally dangerous when you do get up close and personal.

Your opposite number may also make a good business partner and vice versa, since your sensual nature will attract passionate individuals to you. Manipulation can take place where money and sex are concerned. At your best you make a loyal, deeply committed and intimate partner. Learning to trust, and be trusted, is important if your relationships are to grow and develop outside of the bedroom, but in the process, you may have to deal with your own, and others' jealousy, possessiveness and suspicion.

Privacy versus togetherness will be an issue in partnerships. Because time together is so concentrated, you or your partner periodically need some space. Possessiveness can arise, but with it comes great loyalty, which perhaps is compensation.

Sometimes you hold on best by letting go

 7th

Sagittarius in 7th House

Since you're never likely to be short of admirers, it may be difficult for you to make a serious commitment to someone, especially when pastures have a habit of looking greener elsewhere. However, any commitment you do make is unlikely to be too 'serious' because you are only drawn to individuals who have a cheerful, happy-go-lucky approach to life.

When it comes to your close personal relationships you like freedom to express yourself and do your thing. You don't like being restricted in your relationships. Therefore it is important that your opposite number learns early on the significance of the notion that, as far as you are concerned, "Sometimes you hold on best by letting go". You don't like being tied down, especially in the bedroom, so while you may have numerous affairs, you might wait before making a commitment, preferring companionship to sex.

When you do get involved it is usually on your terms. It is important that your relationships have a consciousness-raising effect on you and that they serve to broaden your views on life, love and the universe. Therefore, you may get together with a foreigner or someone from a different social or cultural background. By nature you are extremely curious and so someone who can feed that side of you, and take you on an intellectual adventure, is likely to have much of what it takes to keep you around.

You like a laugh, and although you like philosophical and intellectual types, anyone too serious or too pompous is likely to make you restless and impatient. Your relationships are themselves a source of adventure, since it is through others that you are able to broaden your perspective, expand your horizons and find a more universal and inclusive approach to life.

The emphasis in partnerships is on development. Too much 'togetherness' can be restrictive, but some expansive experiences should be shared so that neither partner is left behind. Joint activities should include travel or studying together.

Healthy relationships

 6th

7th House Ruler Pluto in 6th House

Your work or your daily schedule and routine is likely to provide a rich source of potential partners and, when you do make a commitment, you are prepared to work hard to make it a success. Whether in a joint business venture or on the shop floor, you may work with your partner in some way.

However, there is a strong possibility that your relationships may affect your health and vice-versa for both good and ill, therefore, when stressed, you might consider whether the problem is in you, or in your relationship. Alternatively you may also find that when you're stressed your partner knows just how to calm your fears and sooth your worries and cares. There is however a possibility that your partner's health will be an issue you may have to deal with in some way, at some point.

You want your partnership to run smoothly. Establishing a routine in this area is satisfying and you need practical reasons for changing your habits. You try to avoid unplanned joint activities because half the fun lies in arranging the details.

The ultimate union, union with the ultimate

Neptune in the 7th House

You seek the great beyond through your relationships and need to be careful your good nature is not taken advantage of by others. You have a deep, indescribable need for relationships, yet your standards and expectations may be unreasonable or unrealistic for any mere mortal to live up to. Realities like sex and money may be swept aside in your reluctance to see others as they really are. You search for perfection in your opposite number and may well become disillusioned with imperfect partners. There is no middle way with you when it comes to relationships and you may well experience both the heights of ecstasy and depths of despair. While you are drawn to artistic, mystical, musical and poetical partners, and relationships with a strong degree of spirituality, you may also attract self-indulgent, delinquent, impractical dreamers; individuals inclined to excessive sensual indulgence, shiftless and irresponsible with little regard for honesty, decency or public morality.

While you may be called upon to make sacrifices in your relationships, martyrdom isn't necessary, nor is it in your best interests, so resist the tendency to rescue and reform others on the fringes of society, or get yourself embroiled in relationships with people who are not free. Nevertheless, your relationships are likely to be unusual in some way, which could involve individuals from very different social and cultural backgrounds than your own. Whether you are aware of it or not, you're likely to have a strong psychic link with people with whom you become intimately involved.

You are extremely sensitive to the moods and feelings of others and may mistake others' feelings for your own. At your best you apply spiritual values to your relationships with others, giving love and understanding, unselfishly and unconditionally. However, emotional confusion is likely in relationships so you need to be careful not to be taken advantage of, or to be confused or misled by others.

David's Sexual Relationships

In the context of a relationship, the 8th house can represent shared resources, partner's resources, or sex. Here it is treated solely as the house of sex. The signs and planets in the 8th house and the position of the 8th house ruler are used to determine David's sexual needs and the characteristics of his sexual partners.

Since sexual activity can be an ingredient in both love affairs (5th house) and partnerships (7th house), you must decide which category your relationship belongs to and combine the relevant definitions. If the relationship is purely sexual, you can ignore the 5th and 7th houses.

Recreational sex

Sagittarius 8th House Cusp

Enthusiastic, frank and open when it comes to sex, you like variety and adventure in the bedroom, since, if things start to get stale and your partner stops making your toes curl, you are apt to be off in search of some other sexual target. You're quite fortunate when it comes to sexual escapes and adventures.

You find it relatively easy to express your needs for intimacy when up close and personal and to get those needs met. Somehow you know it'll all work out and so tend to adopt a happy-go-lucky approach to your sex life. Not that it's always a smooth ride emotionally, since you have a tendency to have too many irons in the fire and spread yourself too thin sexually.

Your direction in sexuality may follow one of two different courses. You may view sex with a kind of reverence, or else you may consider it merely a form of recreation. For the greatest kind of satisfaction, you should combine the two attitudes.

Randy old goat

Capricorn in 8th House

You have a breezy, cool and sociable exterior. When it comes to sex you can be as randy as an old goat. However, you may have a tendency to repress your passions, developing self-control in the sexual arena, or alternatively going to the other extreme, indulging in relentless sexual activity in order to feel good. Your sexual needs are probably quite primitive and instinctual.

You may even know how to use sex to further your ambitions or gain control over others. However, you may feel at times that when it comes to intimacy, things can get a little heavy and burdensome. You generally want to be free to come and go as you please because responsibility weighs heavily on your shoulders and you may therefore feel that the sexual side of relationships is more trouble than it's worth - leading to commitments and ties you'd rather live without.

You take sexual matters seriously, and having practical reasons for a sexual involvement will be helpful. You may not be spontaneous and original in this area, but that does not have to detract from your feelings of accomplishment.

Sex, mystery and the great beyond

8th House Ruler Jupiter in 12th House

You may keep your real attitude to sex under wraps, at least until you feel you have got to a situation where you feel comfortable enough to let your guard down. This can have a number of effects, one is that you may try and keep your true desires under an impassive cloak. However, at times your guard will slip, especially when you feel the stakes are high, giving at least part of the game away. Others therefore may be surprised, and a little unnerved, when you reveal your true sexual nature - when you eventually get up close and personal.

This may be because you don't want to expose yourself or your vulnerability, or simply because you prefer to keep your private life private. Because of this some, people are not entirely sure about your true sexuality and may question your true sexual nature because you may give misleading or conflicting signals. Since there is likely to be a veil over the more intimate details of your private life, you may enter into relationships others consider clandestine, or you may even have a number of secret sexual involvements going on which you keep under wraps.

Nevertheless, your discretion when it comes to sex may also make you seem a bit of a prude, which is likely to be far from the case behind closed doors. Your attitude to sex is not without its benefits since it is very likely that at some point, your desire for sex and intimacy will get you in hot water, leaving you feeling that when it comes to sex you're your own worst enemy - especially if you let your desires swallow up your reserves, whether they are emotional, physical or financial.

Within you there is a voyeur, drawn to unusual sexual practices. And so, over time, desire for a rich inner life may draw you towards Tantric sex, Magik, or religious fanaticism where sex becomes an avenue through which you can have a deep religious experience and contact the great beyond.

You will not accept sexual activity as an isolated factor in your life. You may consider it a culmination of hidden desires that you will examine for greater understanding of self and partner - or perhaps as a path toward your greater goal.

There's more to life than sex

No Planets in the 8th House

While sex is important to you, it's not a big deal, nor does it occupy as much of your time and energy as it does for some. This does not mean your sex life is uneventful; it's just that your sexual demands and tastes are probably less peculiar or complex than they are for others.

Your sex life is subject to periodic change and upheaval, but your real priorities are often elsewhere. You may find that the pursuit of sexual gratification actually takes you away from those activities that you find meaningful and so, while you'll put up with occasional disruption in this area of your life, when things eventually settle down again you're usually keen to get on with other things.

You are not doomed to a life of celibacy. It's just that your list of requirements in a sexual partner, and needs in sexual activities, will be shorter than most, though very likely your enjoyment will be just as great.

Victoria's Relationship Potential

An astrological chart is divided into 12 'houses' each of which represents a different sphere of human life. The 5th, 7th, and 8th houses are concerned with relationship potential. Although these houses also have other meanings, here they are defined and interpreted as Victoria's love relationships (5th), Victoria's partnerships (7th) and Victoria's sexual relationships (8th).

Victoria's Love Relationships

The 5th house describes romance and courtship: the qualities you seek in a lover and in a love relationship. You may be attracted to different types of lovers who possess one or more of these qualities, but you are most likely to find true happiness with the one person who combines most or all of them.

Smooth operator

 5th

Libra 5th House Cusp

Charming, attentive and with impeccable manners, you are generous to a fault when it comes to showing your affection. By nature you are friendly, sociable and prone to flattery that makes others feel better about themselves; all of which makes it easier for you to get your own way. This can be your Achilles heel when it comes to love.

On one level, you'll give some people the impression you think they're special when, in fact, you're only trying to oil the wheels. On another level, when romantically involved, you're likely to say all the right things, just to keep the peace. You are drawn to attractive, artistic and articulate people and have a wonderful ability for making others pursue you.

You are drawn to people who are attractive, charming, but perhaps indecisive. There will be more discussion than activity. When you tire of sitting around, suggest an art gallery. This will appeal to your lover's artistic sense and get you moving.

Deep and dark

 5th

Scorpio in 5th House

While you are drawn to powerful and charismatic lovers, you sometimes end up in the sewer. Tremendously passionate, emotionally and sexually, you can also become possessive and jealous. Your love life is likely to be one of extremes. You offer devotion and demand serious commitment in return.

Once someone touches your heart, however much of a rogue or oddity they are in the eyes of the world, you believe you can change them because of your deep conviction in the transformative power of love. And yes, miracles happen, but in the meantime you may, at some point in your life, be forced to examine whether it's your need for intense experience, rather than any one individual that is creating such scenarios.

You attract intense lovers and it is easier to concentrate on one lover at a time. It may be hard to extricate yourself from relationships once they are formed, but it can be done, if desired, by slow, deliberate action after much deep, emotional probing.

The grass is greener on the other side

♃ 5th

Sagittarius in 5th House

You're happy-go-lucky approach to life and love and your natural optimism and enthusiasm makes you a much sought after lover. Restless and easily bored, you need variety, both in and out of the bedroom, so your natural curiosity can be mistaken for promiscuity.

Virtually unshockable, you enjoy romantic adventure and are ever eager to broaden your already broad mind. Therefore you are drawn to relationships with people from different cultures and countries that enrich your life and worldview.

However you've a tendency to think the grass is greener on the other side and so there may be times when you need to develop a little more patience and persistence when it comes to love if you're not to regret letting someone special slip through your fingers. Impracticality coupled with your natural generosity towards your lover could get you in a tight spot financially but somehow you always manage to land on your feet, even if you're left with holes in your shoes.

The emphasis in love relationships is on movement. Once something new is experienced and digested, you go on to different situations. Your lover may not always be consistent, but you should be philosophical about it and focus on having fun.

Lover as a status symbol

♀ 10th

5th House Ruler Venus in 10th House

You are drawn to lovers who are dependable and can provide security as well as enhance your status in the eyes of the world. You are likely to find your love life can have a direct bearing on your social standing, reputation and career.

This can indicate that your lover opens doors for you, helping you achieve your worldly ambitions, or maybe, that you use romance to shoot up the ladder since you're likely to have the knack of winning the affection of those in positions of power and authority. You might find your love life in the public domain, which could range from being the subject of a tabloid exclusive to the subject of local gossip.

You want lovers who are dependable and who will provide security; and if they are considered successful by world standards as well, that's a bonus. Your time together may not be exciting, but you will probably be seen in all the right places.

Brief encounters

♃ 5th

Uranus in the 5th House

Your love life is likely to be unconventional, unpredictable and emotionally volatile. Difficult if not impossible to satisfy, you demand freedom and independence and can be an incredible flirt one minute and as cold as ice the next. Detached and noncommittal, you no doubt have your fair share of brief and unusual love affairs.

In the bedroom, or for that matter, in the open air, you're likely to challenge traditional sexual morality and practice, indulging your unique and even strange tastes that some may find perverse and antisocial. Of course, your love life is never dull and while this makes you exciting to be around, it would take somebody equally remarkable and eccentric to keep you interested for long.

You will thrive on the unexpected in love relationships and equate romance with excitement. You want a lover who is original, independent and respects your individuality. If a relationship becomes too confining, you may abruptly end it.

Victoria's Partnerships

The 7th house describes marital partners and other close, one-to-one relationships. Courtship (5th house) can lead to partnership, but the 7th house assumes a close, constant contact so it is more difficult to escape potential problems. For that reason, they are more fully addressed here.

When Victoria's love affair shifts to a partnership the emphasis of her relationship changes, according to characteristics described by the signs and planets of the 7th house, as well as the position of the house ruler, outlined below.

Still waters run deep

Capricorn 7th House Cusp

Relationships can prove tricky for you. By nature you are very sensitive and intensely emotional; prone to deep moods and feelings, nowhere is this more apparent than in your close personal relationships. Therefore, one of the qualities you look for in a partner is someone who can offer you security - emotional mainly, but financial too. You are drawn to individuals who are often rather mature for their age, and you may team up with someone older who has acquired worldly goods, wisdom and is established in the world in some way. You need to be careful though because your natural maternal instinct may lead you to take an almost parental role with your partner, and your possessiveness and over protectiveness, often fuelled by your own insecurities, may have a restrictive affect on your opposite number - especially if your protectiveness stops them from fulfilling their true potential.

Since you are so very sensitive and, once committed, reluctant to make a change even when things get rough, you need to choose wisely. Your major decisions are likely to be more influenced by your heart than your head, which is how it should be, but nevertheless, try to make sure your affections for someone are based on more than just a passing whim or infatuation. It is likely that some people have an almost disturbing influence on you emotionally; you are drawn to them, but at the same time, almost unable to communicate without betraying the deep emotions they stir within you. Whilst this can be disconcerting and unsettling, and may make it almost impossible to reach out for what is so close at hand, the plus side is, that when you do get involved, you are rewarded with far deeper, more loving experiences.

You may be drawn to the type that looks distant and aloof on the outside, but who, like the still waters that run so deep, are deeply sensitive and emotional underneath promising the establishment of a deep and meaningful emotional bond for you. Be careful though, you may attract the occasional truly cold fish who, somehow, manages to stir your emotions, but who turns out to be as cold on the inside as they appeared on the surface and who will only serve to exacerbate your insecurities. Since you are so emotional, it helps that your partner is more practical and businesslike about things. Although you may have many opportunities, you might not find a suitable mate, or make a serious commitment, until you are into your thirties.

You want a partner to be proud of and material security is important. You may therefore be drawn to someone who is already established in the world. With partnership comes responsibility and at least one of you will be duty-oriented.

Escaping from it all together

7th House Ruler Saturn in 12th House

This can be a tricky combination. Positively, your partner can be a huge, yet hidden, source of comfort and help, like your guardian angel with whom you have an almost telepathic link. Negatively, your partner may have the ability, consciously or unconsciously, to undermine you and your best interests, feeling more like a cross to bear than an equal partner in a relationship.

Nevertheless, you will find that it's when you escape from it all to spend time together that your relationship really blossoms and so it is vital to have frequent quality time alone together to develop a rich inner life. There is a strong element of idealism and sacrifice in your close personal relationships that may take the form of you being the power behind the throne in the life of someone who is an outwardly successful individual.

Your deep need to experience an almost mystical union can catapult you into seemingly fated relationships in which you have an almost compulsive urge to merge with your partner.

You may develop telepathic communications with your partner; delving into the subconscious is easier than speaking. Or perhaps you feel that you are together from a past life, but this may be for a reward, not necessarily for punishment.

Take it or leave it

No Planets in the 7th House

While relationships are important to you, they are not the be all and end all for you, nor do they occupy as much of your time and energy as they do for some. Your relationships are subject to periodic change and upheaval but your real priorities are often elsewhere. You may find that the responsibilities and commitments of relationships often takes you away from the activities that you find meaningful and so, while you'll put up with occasional disruption in this area of your life, when they eventually settle down you're usually keen to get on with other things.

This does not mean that you will never marry, nor have a close one-to-one relationship. In fact, your demands are less complex than most, so you won't expect as much of a partner and it may be easier to get along with yourself.

Victoria's Sexual Relationships

In the context of a relationship, the 8th house can represent shared resources, partner's resources, or sex. Here it is treated solely as the house of sex. The signs and planets in the 8th house and the position of the 8th house ruler are used to determine Victoria's sexual needs and the characteristics of her sexual partners.

Since sexual activity can be an ingredient in both love affairs (5th house) and partnerships (7th house), you must decide which category your relationship belongs to and combine the relevant definitions. If the relationship is purely sexual, you can ignore the 5th and 7th houses.

Capricorn 8th House Cusp

You take sexual matters seriously and having practical reasons for a sexual involvement will be helpful. You may not be spontaneous and original in this area but that does not have to detract from your feelings of accomplishment.

Sexual rebel

 8th

Aquarius in 8th House

Sexually surprising, outgoing and inventive, you may prefer to treat your desires in a logical way so as not to be at the mercy of them. Often appearing a little bashful on first meeting, you can find ingenious ways of getting your needs met and expressing them to others. While you may come across as endearingly sensitive, homely and even a bit of a traditionalist, when it come to getting up close and personal with someone who makes your juices flow you can be something of a non-conformist, eager to experiment and to engage in different and even unusual sexual practices.

You can be detached when it comes to sex. Rebellious and impulsive, you may express yourself and your needs in a contrary or unorthodox way, bordering on the perverse or peculiar and engaging in what some might consider sexual aberrations. You may perplex your partner by expressing your passions in an idiosyncratic and eccentric manner.

You have an intellectual curiosity about sexual matters, and your ideas may be nonconformist. You believe in maintaining individuality in this area and are not necessarily looking for emotional commitment from a sexual partner.

Sex, mystery and the great beyond

8th House Ruler Saturn in 12th House

You may keep your real attitude to sex under wraps, at least until you feel you have got to a situation where you feel comfortable enough to let your guard down. This can have a number of effects, one is that you may try and keep your true desires under an impassive cloak. However, at times your guard will slip, especially when you feel the stakes are high, giving at least part of the game away. Others therefore may be surprised, and a little unnerved, when you reveal your true sexual nature - when you eventually get up close and personal.

This may be because you don't want to expose yourself or your vulnerability, or simply because you prefer to keep your private life private. Because of this some, people are not entirely sure about your true sexuality and may question your true sexual nature because you may give misleading or conflicting signals. Since there is likely to be a veil over the more intimate details of your private life, you may enter into relationships others consider clandestine, or you may even have a number of secret sexual involvements going on which you keep under wraps.

Nevertheless, your discretion when it comes to sex may also make you seem a bit of a prude, which is likely to be far from the case behind closed doors. Your attitude to sex is not without its benefits since it is very likely that at some point, your desire for sex and intimacy will get you in hot water, leaving you feeling that when it comes to sex you're your own worst enemy - especially if you let your desires swallow up your reserves, whether they are emotional, physical or financial.

Within you there is a voyeur, drawn to unusual sexual practices. And so, over time, desire for a rich inner life may draw you towards Tantric sex, Magik, or religious fanaticism where sex becomes an avenue through which you can have a deep religious experience and contact the great beyond.

You will not accept sexual activity as an isolated factor in your life. You may consider it a culmination of hidden desires that you will examine for greater understanding of self and partner - or perhaps as a path toward your greater goal.

There's more to life than sex

No Planets in the 8th House

While sex is important to you, it's not a big deal, nor does it occupy as much of your time and energy as it does for some. This does not mean your sex life is uneventful; it's just that your sexual demands and tastes are probably less peculiar or complex than they are for others.

Your sex life is subject to periodic change and upheaval, but your real priorities are often elsewhere. You may find that the pursuit of sexual gratification actually takes you away from those activities that you find meaningful and so, while you'll put up with occasional disruption in this area of your life, when things eventually settle down again you're usually keen to get on with other things.

You are not doomed to a life of celibacy. It's just that your list of requirements in a sexual partner, and needs in sexual activities, will be shorter than most, though very likely your enjoyment will be just as great.

David's Mercury Semisquare Victoria's Mercury

However, in time, David and Victoria may experience increasing difficulty agreeing on anything for long. David and Victoria may become critical of each other and each other's ideas. Too much disagreement and criticism will undermine the relationship.

Obstinance may be difficult to avoid since David and Victoria are unlikely to see eye-to-eye and even agreement on the little things may be difficult to achieve. Since differences of interests will not engender mutual support, communication and companionship will suffer if David and Victoria find that they don't have very much in common.

How David relates to Victoria and how she responds

How David's discipline affects Victoria's personality

♄ 1st

David's Saturn in Victoria's 1st House

David can be a source of much support and stability for Victoria. Although the relationship may take a while to deepen and develop, over time Victoria may feel a great deal of responsibility for David. However, David needs to be mindful not to stir up too many of Victoria's fears and anxieties. David may have to learn not to be too critical or demanding of Victoria otherwise he risks becoming a burden rather than a steadfast source of security.

Nevertheless what might have started out as a romantic love between David and Victoria may soon reach a point where they find themselves at a crossroads and have to think seriously about whether they want to take things further and deepen their commitment to one another.

For relationships to work long-term there needs to be a certain amount of 'glue'. David and Victoria have that 'glue' should they choose to take things further. David's conduct on this issue may be a bit puzzling to Victoria at first. Initially David may be reluctant to commit but, over time it may be he who appears most eager to cement the relationship, although this may be presented in indirect ways - in his attitude as much as his actions.

David and Victoria may feel the hand of fate at work in their relationship and resign themselves to the fact that despite whatever difficulties they may face, somehow they were meant to get together.

You can feel a strong bond between you and your partner, whether you like it or not. It may be that your partner holds you back, or maybe you feel secure and responsible because of your partner. It's probably some of both.

If David and Victoria believe in Karma and reincarnation then they may feel they have shared a past life together. David can be a source of great support, acting like an anchor. Nevertheless, David and Victoria's home life together may be one of constant change, which could range from anything to do with domestic upheaval to constant renovation in the home. David will want to exercise his influence and control within the home.

If Victoria's attitude toward sex is greatly influenced by one of her parents, then she may find herself drawn into a relationship with David which may mirror her parent's relationship. Victoria's sexual relationship with David can act like a barometer of Victoria's emotional and psychological wellbeing. There is a powerful emotional attraction between them; Victoria needs to be able to relate to David emotionally, and therefore it is important that David is tender and caring.

You may think that your partner wants to be the power in the home and there can be security in knowing who is in charge. If, however, you both resent authority - divide the realm - you can both be boss!

Enjoyment

How David might become involved in entertainment and fun of all kinds; including romance, gambling, parties, creativity, children and pleasure in general with Victoria.

How David's originality affects Victoria's creativity

♅ 5th

David's Uranus in Victoria's 5th House

David and Victoria's love life is likely to be an unpredictable, unusual affair. The initial attraction was probably sudden, dramatic and intense. It is important for David and Victoria to make sure there is enough freedom and independence within the relationship otherwise Victoria or, more likely, David, will engineer scenarios which keep the excitement and uncertainty going (although this may be at the expense of turning their relationship into a volatile on-again, off-again affair).

David may inspire Victoria to start new, eccentric or unconventional hobbies, or may introduce her to innovative ways of expressing herself creatively. Their love life is likely to be unpredictable and emotionally volatile. Victoria may find it difficult to accept David's demands for freedom and independence. David can be an incredible flirt one minute and as cool as a cucumber the next.

Whether or not David and Victoria's relationship is free, open and non-committed, it will nevertheless be an unusual and even unlikely love affair. In the bedroom, or for that matter, in the open air, they are likely to challenge traditional sexual morality and practice, indulging their unique tastes, which some may find a little perverse. David and Victoria thrive on the unexpected in their relationship and for them romance and excitement go hand-in-hand.

You may find that your partner has unusual ideas concerning your creativity. This could stimulate you to new heights in artistic projects, but if the suggestions do not appeal to you, you probably will not be forced to follow them.

David may inspire Victoria to approach life's responsibilities with greater humility and reverence, encouraging her to appreciate the little things in life. Victoria may be very selfless in her approach to David, making many small sacrifices to his needs.

At times it may seem as if David's very presence can affect Victoria. When Victoria is ill, a bit down, or simply just under the weather, then his company can sometimes have a very therapeutic influence.

David can prove both an inspiration and distraction and may be able to come up with unique and unusual solutions to deal with life's little day-to-day chores. Where Victoria's work is concerned, there may be times when he proves too much of a distraction (even confusion) for Victoria, making it difficult for her to get on with things or concentrate on getting anything done.

You may feel that your partner is sometimes unreliable in the area of the daily routine, either too tired to work or dreaming on the job. If, however, you convince your partner that hard work leads to heaven, you'll be stunned at the effect.

Life and death issues

Intense and weighty issues: death, obsessions, repression, jealousy, taxes, joint resources, inheritances and other people's possessions. What David wants or needs sexually.

How David's way of behaving affects Victoria's recourse and sexuality

☾ 8th

David's Moon in Victoria's 8th House

It probably wasn't very long after David and Victoria met that they became aware of a powerful connection between them. Their relationship will be an all or nothing affair, emotionally and sexually intense and at times it may be difficult for either of them to exercise emotional control.

Nevertheless, during periods of personal change and upheaval, Victoria is likely to benefit from David's help, both emotionally and financially because he seems to know just how to make Victoria's juices flow. In fact, there may be times when an almost constant need for sexual gratification dominates their relationship. David will act as a catalyst in Victoria's life and she can, if needed, rely on his support.

David will be willing to use his resources to help Victoria change and transform herself, and her life, at the deepest level. With sexuality and intimacy very much to the fore, David may bring Victoria the confidence to really come to terms with deep issues of trust; learning to be vulnerable through developing a deep desire for greater intimacy within their relationship.

At times David can appear possessive but he does offer the possibility of bringing stability into Victoria's life. Not only is the sexual side of Victoria's nature aroused by him, but so too is the potential of a deep spiritual awakening. This is likely to occur when they really get 'up close and personal'.

While power struggles can manifest from time to time over issues of money, sex, and power within the relationship, this is a reflection of deeper issues of trust that will surface between Victoria and David as their relationship grows and evolves, through periods of personal and spiritual rebirth and transformation.

Most likely you find that your partner is either more the 'responder' than the 'aggressor' in sex or else that your partner manipulates you in this area, but through gentleness, so if manipulation is the route, it will be subtle.

How David's energetic drive affects Victoria's ambition

♂ 10th

David's Mars in Victoria's 10th House

David's competitive drive and determination will encourage Victoria to be more effective and productive and thereby, successful in her professional life. David really can help Victoria succeed professionally and he may be prepared to work tirelessly to further her reputation and status in the eyes of the world.

However conflicts may arise if Victoria considers David too rash, impatient and impulsive. Too much career pressure from David may create rivalry and antagonism and if they can't resolve their differences then Victoria's reputation and status may actually suffer through her association with David. This will especially be so if David's insistence on doing things his way lead Victoria into hot water with superiors and people in positions of power and authority.

Nevertheless David can give Victoria constant stimulus to achieve and his energetic support may enable Victoria to peak, reach her highest potential and best level of performance but again, too much pressure will not do anybody, or the partnership, any good.

Your partner may be a great director by profession or in some other way out there in the world. In this case, however, it is your career or your world, remember that you do not always have to abide by every decision your partner makes.

Under David's influence and support, Victoria is likely to take greater risks, aim higher and achieve more in her professional life than she would were it not for his support. David can give her much confidence and encouragement, so much so that sometimes things may get a little flat for her when he isn't around. When they are out and about together Victoria seems to come alive, gaining extra confidence and optimism when in his company.

Whether or not they end up in business together, David is likely to prove very helpful when it comes to furthering Victoria's aims and reputation. This may involve giving emotional or financial support, giving advice and direction or just looking after those elements of Victoria's life that get in the way of her achieving her potential.

Your partner may have a better overall perspective of your career than you do and you can turn in that direction for advice on expanding your horizons professionally. On very practical matters, however, you may have to look elsewhere.

There may even be something secretive or even clandestine about David and Victoria's relationship. David brings out an almost devotional quality in the affection Victoria has for him. Victoria may also find that when they are in most need of love and reassurance David has a knack of being there for her, offering much sympathetic companionship and understanding.

Whether he intends to or not, it may be difficult at times for David not to take advantage of Victoria's good nature, and at such times, she is prone to put David on a pedestal. It may be difficult not to let seduction lead to exploitation.

At other times it may be hard to get David to express his love and affection towards Victoria, but when it is expressed, she will be left with a warm glow, invisible but real, as David's love penetrates the barriers between them.

This can be a tricky combination. Positively David can be a big, yet hidden source of comfort and support, almost like Victoria's guardian angel. David and Victoria may find that it is when they escape from it all to spend time together that their relationship really blossoms, so it is vital to have frequent quality time alone together to develop the more intimate areas of their love life.

There is an element of idealism and personal sacrifice in David and Victoria's personal relationship which may take the form of David providing love and support away from prying eyes, while outwardly Victoria maintains an impenetrable persona as a successful individual.

Victoria's desire to experience a mystical union can catapult David and herself into a seemingly fated relationship in which they may struggle at times to control an almost compulsive urge to merge with one another.

Your partner may not be demonstrative or express affection easily and this could sometimes make you question whether your partner really cares. If you bring your concerns out into the open, you may find that there's more support than you appreciated.

♂ 2nd

Victoria's Mars in David's 2nd House

When it comes to making or spending money, Victoria is always on the go and will encourage David to develop his financial assets and show enterprise and initiative when it comes to handling his money.

However, David may consider Victoria too adventurous, impatient and impulsive when it comes to money and her tendency to overspend may lead to quarrels over money and a struggle between them for greater financial independence.

Money and finances could be a source of conflict, but it is more likely that it is due to Victoria's interest in David's financial affairs. So unless David feels happy to let Victoria take charge of the purse strings, to avoid conflict it's probably best they try not to get too closely involved in joint finances since they may have very different ideas about how business should be conducted - and that could be a source of tension and disagreements.

You may think that your partner wants to handle your money, or at least tell you how to spend it. This could help you get your act together here. Or perhaps it would be easier just to let your partner take charge of the finances.

How Victoria's discipline affects David's values

♄ 2nd

Victoria's Saturn in David's 2nd House

Victoria may put pressure on David to make more of himself, which is fine when it is encouragement but, if Victoria should nag or be critical of David, then this is likely to have a detrimental effect on his confidence.

Victoria can help David manage his financial affairs, offering sensible, albeit conservative, advice and acting like a brake upon any reckless tendencies David may have when it comes to money. However, at times, it may feel like there is a fine line between a prudent approach to financial affairs and penny pinching. At her best, Victoria can act like a wise bank manager, helping David achieve greater long-term security. At her worst, however, Victoria may at times prove to be a financial burden for David.

Nevertheless, Victoria must be careful to do her best to encourage David in all his activities since he will be extra sensitive to her disapproval and criticism which could dent his self-esteem and make it even more difficult for her to make the most of his potential.

Your partner may take care of your finances for you, or else put a damper on the way you spend your money. Another possibility could be just that your partner can help you to better handle and arrange your finances.

How Victoria's originality affects David's daily life

Victoria's Uranus in David's 6th House

David may find life with Victoria unpredictable and exciting. David may find that no matter how hard he tries to stick to his regular routine, Victoria manages to upset the schedule and introduce new priorities - probably when they are least expected. Victoria may help David look differently at how he lives his life and how he manages day-to-day aspects of living by introducing him to innovative, time saving devices.

Victoria may also introduce David to new and revolutionary diets and exercise routines and they may both enjoy engaging in unusual keep-fit activities together.

If Victoria is continually unreliable then she may disrupt David's attempts to get on with the chores and necessities of life. If she becomes too critical of David, constantly fault-finding or pointing out how things can be done better and more efficiently, then the tensions and irritations could take their toll on David, leaving him subject to minor stress related ailments.

You may not be able to count on your partner to follow a rigid daily routine or to consistently accomplish tedious tasks. Energy will probably come in spurts, take advantage of it when it's there. Ultimately all of importance can get done.

How Victoria influences David's daily life

Victoria's Pluto in David's 6th House

Victoria may be only too willing to be of service to David, running around doing lots of little things for him. However, by looking after the little details of life Victoria may end up indirectly controlling David. At her best, Victoria's very presence can have a therapeutic effect on David. Victoria may take a keen interest in his welfare and help and encourage him to adopt a healthier diet and lifestyle.

At her worst however, Victoria can appear like a fussy busybody, constantly being critical of David. Therefore Victoria needs to be careful to offer David encouragement rather than constantly finding fault, otherwise, her criticism may have a detrimental effect. If David thinks his every move is being subjected to scrutiny by Victoria, he may begin to lose self-confidence and Victoria's criticisms may even make him physically ill.

On another level, Victoria and David may find they need sex on a regular daily basis to help discharge tension and rejuvenate themselves. Nevertheless, problems in Victoria and David's sex life could have detrimental effects on David's health and any related illness may well be traced back to difficulties in the bedroom. A healthy sex life is important for them both and they'll find that the healthier and fitter they are, the more they'll get out of their sex life.

Your partner may seem totally unbending if you attempt to be in charge of the daily routine. If you want something accomplished there be subtle, and convince your partner that it really is his idea, not yours.

Victoria may turn out to be a bit of a blind spot for David. Victoria's influence, while powerful and profound, is unlikely to be obvious or clear cut. In fact the benefits of the association may not be immediately apparent or obvious.

David has something important to learn from Victoria but this may be concerned with issues of suffering and sacrifice. Personal growth and development are promised by the association but it may be more on a spiritual level, raising David's level of consciousness.

David may feel psychologically supported by Victoria who has the knack of being there for him. David needs to be careful not to take Victoria for granted, since the way things seem to work and fit into place between them, may appear effortless at times.

There also appears to be a strong, unspoken, almost telepathic link between them. Victoria can have a deep emotional influence on David, often in ways that are difficult to understand or articulate. David may feel threatened or undermined by Victoria since he may not always understand her motivations and true intentions.

Therefore it is important that lines of communication are kept open between Victoria and David since this powerful influence could be plagued by misunderstandings. However Victoria's motivations may be beyond David's understanding which, at first, may have been a source of concern.

David's initial reaction to Victoria may have been a combination of fear and distrust, combined with an almost compulsive fascination. Victoria may have inspired a certain mystery and complex in his heart and mind. She can offer David hidden support and encouragement and will help him get to the roots of his emotions.

However, it is almost certain that they will clash before long because they are likely to have different views about the home and domestic arena as well as different ambitions and attitudes to worldly matters.

Victoria can sometimes come across as insensitive and inconsiderate to David's needs, while David can appear moody and inconsistent at times to Victoria. David will need to try not to be so sensitive and not to take Victoria so seriously.

Victoria and David's relationship can only grow and develop if they are prepared to accept each other's differences - which is partly what brought them together in the first place.

Rollercoaster - 'Close One' ★★★★★

Victoria's Sun Opposition David's Uranus

Victoria and David's relationship is likely to be a bit of a rollercoaster ride and while it may well start with a bang, it could be a real challenge to stop it going off the rails with David having a disconcerting, disruptive and disorderly affect on Victoria.

After a brief period of intense fascination and infatuation, the differences between Victoria and David quickly appear. Conflicts lead to an on/off relationship with David's unpredictability leading to Victoria's eventual resentment and irritation. David will rebel against Victoria's attempt to assert her will and his impatience and rebelliousness will increase with time and make it difficult for them to sustain a committed relationship.

Confusion - 'Close One' ★★★★★

Victoria's Sun Sesquiquadrate David's Neptune

David can also be elusive, unreliable and even dishonest. David may appear submissive but in fact uses subtle means to control or undermine Victoria.

Difficulties are likely to be exacerbated if either Victoria or David start to put the needs of the relationship before their own because that could result in them losing their direction. They could become increasingly confused about what was important and what was not.

Misunderstandings, doubts, confusion and distrust will eventually undermine Victoria and David's relationship unless other, more positive aspects of the relationship, exert a strong, protective influence. Victoria can feel spiritually and emotionally undermined by David, while he may increasingly feel Victoria takes his for granted.

How Victoria's words affect David's unconscious

Victoria's Mercury in David's 12th House

There is something unusual about the mental connection between Victoria and David, they can pick up subtle communications from each other, as if they can read each other's thoughts. The almost telepathic connection and sympathetic understanding between Victoria and David creates effortless communication between them.

Victoria inspires David and brings out a deeper dimension to his perspective on life, love and the universe, encouraging his special interests and latent abilities. However, while Victoria can enchant David, she can also confuse or even mislead him, whether by accident or design, since her influence has the potential to undermine him.

Whether Victoria is aware or not, from David's perspective, she can make some situations unclear and confusing. Misunderstandings could undermine the relationship. Victoria is more likely to be the one who creates the problem, maybe on the misguided assumption that it would be best for David if she kept certain things quiet for fear of worrying him.

However, because of the strong link between them, Victoria's motives may only serve to undermine David who is apt to perceive that something is amiss. If such situations arise, David may not be able to put his finger on what is wrong except to admit certain unease.

It is important that Victoria and David develop a relationship based on mutual trust and sympathy, otherwise David may feel unable to trust telling Victoria too much for fear of being undermined through gossip and misunderstandings.

You may try to read between the lines when your partner is talking, either hearing innuendoes or feeling there is more to the words than meets the eye. But this is an excellent position for investigating hidden matters, if unearthed.

Foundation ★★☆☆☆

Victoria's Mercury Square David's Saturn

This characteristic of Victoria and David's can provide one of the foundations of a serious and committed union. David can have a steadying and calming influence on Victoria if he makes sure he tries to offer practical suggestions rather than criticisms of Victoria's many plans and schemes. Otherwise David may become too critical or restrictive of Victoria, finding her too superficial or fickle.

If David becomes too exacting or discouraging, belittling Victoria's ideas and opinions, she may become increasingly inhibited and even depressed in David's presence. David can worry or limit Victoria, adversely affecting her self-confidence and self-esteem.

In time, communication and co-operation will become increasingly fraught. David may resent Victoria's spontaneity and may put undue burdens and responsibilities on her shoulders.

At times it's almost as if Victoria and David can pick up subtle communications from one another and even read each other's thoughts. Mental understanding and an almost telepathic communication bring about sympathetic understanding and an ease of communication between them.

Power struggles - 'Close One' ★★★★★☆

David can have a controlling, even manipulative, effect on Victoria who may find David too intense and demanding, feeling that he controls and dominates discussions all the time.

Resentments are likely to fester especially if David considers Victoria too lightweight or superficial. Differences of opinion could lead to power struggles between Victoria and David.
