Love Life & Forecast

Venus 'the planet of love' is what this two part report, is all about.

Part One - Love Expression

The signs the planets occupy and particularly the position of Venus reveals the kind of lover you are and how you express yourself when you are in love.

Part Two - Time for Romance

Venus, the planet of romance, is a pivotal influence in defining how you fall in love, stay in love and what you look for in a lover and 'soul mate'. It not only represents love and affection, but also harmony, cooperation and the way you feel about and react towards other people.

The 'transits' of Venus, as it moves through the Solar System, shows how you change, grow and develop when it comes to your relationships in general and your love life in particular.

In 'Love Life & Forecast' we interpret only the transits that Venus will make to the other planetary bodies; Mercury, Mars, Jupiter, Saturn, Uranus, Neptune and Pluto as well as the Sun and Moon.

Love Life & Forecast should only be used as a helpful guide for the periods indicated. At all times it is for you to make use of your most positive characteristics and the periods indicated.

Sometimes when a planet 'transits' a natal planet, it first appears to move forwards and then backwards for a period of time re-creating the same 'transit' several times. This apparent backwards motion is known as 'retrograde' motion. This is indicated by the RX retrograde symbol. The retrograde motion of the transiting planets cause some interpretations to repeat.

The illusion of the retrograde motion of the planets on their orbit - can be likened to when two trains travelling in the same direction, one train passes the other and from the view point of the person on the faster train, the slower train appears to be going backwards.

Astrologers treat triple transits quite seriously as it shows where you have an opportunity to think again about your actions before the aspect finally completes. This is in fact a fairly common event. It happens when the transiting planet goes retrograde - briefly, it means that the planet seems to go backwards from our viewpoint on Earth. The transiting planet contacts the natal planet first moving forward ("direct"), then it appears to reverse direction, contacting the natal planet a second time.

The transit can form a precise aspect three times forward/direct and twice backward/retrograde before it is totally over. The transit continues to be felt during the intervening period. You'll sometimes see the same transit "repeated" three, or even five times in a relatively short period.

Planets that form an aspect to a natal planet and then go stationary signal very potent and much longer-lasting effects. Direct planets which form such an aspect and then go retrograde can move over the same point several times, which prolongs the transit well beyond its normal "single pass" duration.

Whatever began on the "first contact" may seem to reverse itself, seemingly needing to be reconsidered and re-attempted... the scheme, conversation or relationship isn't going forward as originally expected. Then, when the retrograde is over, the transiting planet advances again ("goes direct"), and connects with the natal planet again!

So to sum up - some transit interpretations in your Love Life & Forecast repeat when necessary and transiting planets will unavoidably appear to turn from direct to retrograde, and then back to direct again - and will often transit a natal planet several times.

Part One - Love Expression

The Sun, Mercury & Jupiter mirror your way of being, speaking and creating chances

Romance - how you act

Sun in Sagittarius

You revel in taking things as far as they will go. You are generous and wish everyone to share in your happiness - often before you have enjoyed it yourself! A natural teacher and generous visionary, your concern for the future drives you into taking on every opportunity you meet. This can lead you into over-involvement in too many things. You become over-stretched, depleted, even desperate. Regain your strength by being and moving in the open air. Enjoy action for its own sake. Move and be free. In this way discover and re-discover your direction. Experience the exhilaration of pointing to goals in life that will achieve all you wish for. Then enjoy the sheer riding experience of making the journey.

What you think and say about love

Mercury in Sagittarius

You are a quick thinker and talker, with an open, optimistic mind. But are you over-sure of yourself, taking things at their face value? Without meaning any harm, you play with words and tend to be ironic, even sarcastic. Really you have little time for conversations or thinking things out. Certainly, action is important. That is the way to learn from mistakes. But still take a little more thinking time, than you feel inclined to. It will make your direction clearer. Then you will discover your natural brilliance with far-reaching ideas.

How you create opportunities for romance

Jupiter in Capricorn

You create opportunities by firmly concentrating your determination along lines you know you can control. You are conservative and highly conscientious by nature, preferring "tried and tested ways" to "new fangled theories". Your strongly held convictions can prevent real progress. People feel it is impossible to contribute their ideas. Experiment with doing something different. Allow your-self time off and holidays, even if you do not feel you need them. On returning to the fray you will be less hard, stronger and more effective.

How you act, wonder and behave is revealed by your Venus, Mars and Neptune

When you are in love

Venus in Capricorn

You expect so much from love and relationships that you test new lovers, as if they were interviewees for a job! Love to you is a major commitment and something that must grow steadily to an ultimate achievement. What other people think is vitally important. You can act as though your relationship is exposed to public scrutiny, even when no one else knows about it. The protection of propriety is always in your mind. Once through these trials, you work hard to ensure relationships last. Try to allow in joy and delicacy. Something so important should also be fun.

Romantic approach

Mars in Aquarius

You love with immediate consideration for the interests of all. Ignoring convention, you can explore stimulating relationships with unusual and exciting people, but not for sake of variety alone. For you, love requires purpose. Serving a responsive lover in a meaningful relationship, gives you the confidence to take on anything. Honesty and understanding are vital. It wastes energy to be constantly bridging gaps of understanding. Lovers may feel that your social responsibilities get in the way. Learn how to love lovers, before you tackle the world.

What fascinates you about love most of all

Neptune in Capricorn

You are of the generation that needs a strong sense of conviction to give life real purpose. What you believe in must lead to something useful. You will be cautious in what you commit yourself to, but, once convinced, fearless in applying the lesson of your beliefs. Beware of taking too much responsibility. Letting people care for you, will show you the wonder of caring. Know this mystery and achieve your dreams.
