Life Planner

Hi Prince Harry, Welcome to your Life Planner

Your Life Planner should only be used as a helpful guide. At all time, it is for you to choose the best path to follow from what is written below and develop the most positive and rewarding parts of your character.

Retrograde Planets and Why Interpretations Repeat

The word, 'retrograde' means, quite simply, 'directed or moving backward'. Planets don't actually move backward but a complex astronomical process causes some to appear to do so at times – similar to the effect of two trains moving in the same direction and one at a slower speed, or what we see when we look out of the window of a car overtaking another. Briefly, both the slower train or car being overtaken appear to be moving backward.

Each planet in your natal chart represents a particular 'energy'. Retrograde planets, although regarded as being in a 'weakened state' astrologically because energies are drawn inward, offer wonderful opportunities for growth and shouldn't be seen as negative in a natal chart. Retrograde planets hold great astrological significance as they offer opportunities to reflect upon actions or decisions in the past that correlate to the planet's energies and qualities – and what needs to be reassessed and can be improved once the planet moves 'forward', or 'direct'.

Although retrograde planets do not deny us opportunities, they can delay key events in our lives. People with many retrograde planets in their natal chart often must experience steep learning curves before they can experience success in the area of their chart affected by one or more retrograde planets but will have benefited enormously from reflection, assessment and valuable lessons learned along the way!

April 7th 2021 onwards to July 9th 2021**Major Evaluation**

Transiting Saturn Retrograde Squares your natal Saturn

**Cyclical Theme**

This influence occurs around the ages of 7, 21, 35, 51, 63 and 79, bringing a time of developmental tension as circumstances force you to make some major social and personal decisions about what you stand for and where you are going in life.

What are you going to do with your life? What are your ambitions? Feeling restricted and limited. You are being pushed to make a major career decision now and you may not feel comfortable with this, as you work with your limitations and ambitions. This is a major evaluation time as reality forces you to be realistic.

Practical Experiences

Experiences force you to define your ambitions, what you want out of life, where you are going in life, and what your career and social aspirations are. This may bring conflict with those in authority or your parents.

Conflict with parents or men. It's important to concentrate on your goals and ambitions, rather than any negativity which you may feel. Otherwise it's a gloomy and dismal time. What do you stand for? Persevere, work hard and you will come out of this with a clear idea of who and what you are. Challenged professionally.

Major Social and Career Definition Period**Psychological Experiences**

You may find circumstances are restricting and limiting, or forcing you to be responsible and do your duty, to fulfil your obligations. It is a time of making a stand and declaring what you want and deciding where you need to go.

If you have been working hard towards fulfilling your goals this time challenges you and forces a decision. The field to be in, and the people to associate with to help fulfil your ambitions etc.

If you have been avoiding your goals and your responsibilities, you will find that people are now continually reminding you of what you promised or what you wanted from life and haven't achieved.

Therefore, this period has a twofold effect. Firstly, you decide where you are going in life at last or secondly, you feel depressed and negative, you are frustrated and burdened by the responsibilities which you have been avoiding. Consequently, not fulfilling yourself.

From this you will learn what type of work is necessary for you and the type of people you really want to associate with.

Strike out on your own, it's time to make a stand separate from your parents and others, to be truly your own person. Remember in doing this you must consider your responsibilities to others.

As you separate your ambitions from those of your parents etc. you may feel alone. But in another way, you become sure of what you want and where you are going.

This feeling of loneliness is necessary right now as you must now make independent decisions for yourself which leave you feeling isolated. Only in feeling isolated can you find your way home again.

Best Time For - Reflection, introspection and evaluation of where your life is headed.

ACTIVITIES TO AVOID - Escaping into love affairs and neglecting your responsibilities.

Uncertainties

 H $\text{\textcircled{M}}$ $\text{\textcircled{M}}$ $\text{\textcircled{M}}$

Transiting Uranus Opposes your natal Saturn

Cyclical Theme

Your present desire to be free challenges old relationships, habit patterns and life styles. Bringing to your awareness a need to be your own person, to express your originality rather than tow the party line. Here the new is challenging the old, and this may stir up rebellion or fear.

Conservatism versus rebellion. You become aware of the career and type of friends you need to give you the space to be yourself. Whatever you see, you are deciding how to life the next forty years of your life. If you have been living conservatively you may now become radical or vice versa.

Thus, you may feel uncertain about your career, social position and friends. If you don't prepare yourself for change you may find that suddenly the status quo is broken up, friends become unreliable and your job seems uncertain.

Practical Experiences

Business ventures are risky presently, partners and associates are uncooperative. Thus, you may feel uncertain about your career, social position and friends. Ambitions aren't working per plan, there is an obstacle - It's your reluctance to change.

Your professional and social life are changing rapidly and without warning. Political and government agencies are upsetting your plans. If you don't prepare yourself for change you may find suddenly that your world is broken up, friends become unreliable and job security seems uncertain.

You may be made redundant or lose your job. Rebellion against men and authority figures, if taken too far can lead to losing your position.

Psychological Experiences

Responsibilities and duty trap you and you simply want to walk away from them. Stay put and work your way through the limitations. Organize your life so that you can have the freedom you desire.

Don't make a reckless move now, and upset all that you have worked for. Freedom will come after this period if you plan and work for it currently. Try now and things backfire. There is a slowing of your independent and revolutionary stand.

All this delay and attention to duty etc., may cause boredom and depression, do something exciting and stimulating to relieve the feeling of being trapped.

Remember not to be reckless though. Move away from parental figures to get some space of your own.

Best Time For - Consolidating, and working on your long-term plans. Redefine what you want in your friends. Taking a short break and experimenting with some new activities.

Activities to Avoid- Revolutions, and ill-considered business and social moves. New partnerships.

April 16th 2021 onwards to September 8th 2021

Back on Track

Transiting Neptune Retrograde Opposes your natal Sun

Cyclical Theme

You become aware that by following the dreams and fantasies of other people that you have lost your direction. This insight offers you the opportunity to get back on track and reaffirm your purpose again, to differentiate between the real you and fantasy.

First though you need to examine these dreams and integrate the positive aspects into your life. Then use the ones and people that support you and leave the ones that confuse you.

Therefore, this is not the time for action it's for being aware of your dreams and the subtle influence of people upon you. Now you need to commit yourself to your dreams, children, relationships and creativity if you are to have a fulfilled life.

If you have been avoiding the challenge to grow and mature you may find this a confusing and deceptive period. As you commit yourself to an ideal your sense of yourself strengthens and grows.

Practical Experiences

Part of the physical experience of this is that you may be tired and exhausted so sleep more, meditate, paint, dance and have a little wine. This will let you use the inspiration given now.

Remember to enjoy the dreams, build on them, for later you must make them real. This is a confusing and dreamy period, as you are lost in a fog, or possibly this could be a time of inspiration and personal creativity.

You may feel disillusioned by people as old relationships and hopes fade away. Take a rest, sleep more, have a

holiday by the sea and listen to relaxing music. You need to do this to get back in touch with the real you, so you can sort out the confusion of people around you.

Be careful of alcohol and drugs you may overdo these during this period, and be realistic. You may delude yourself about your abilities or your partners. Relationships seem to be drifting, you need to make a commitment.

Be wary, people are deceptive. Wait till this period passes before you make any definite plans about your life or relationships. Since all is not what it seems. Others may be very seductive right now.

Involvement with the shady aspect of life. Investments now are unrealistic. Health problems, may be misdiagnosed, make sure you get several opinions for yourself and children. Floods.

Psychological Experiences

This time brings a period of dissolution as all the illusions about relationships and your direction, which you have built around yourself dissolve and disappear and you are left with the real you and partner. You may try to avoid this by using alcohol, drugs, religion or escaping into fantasy.

Now, you and your partner are prone to delusions of grandeur, are you sure that your dreams and expectations of each other are realistic. Either your partner or you may feel as if you've lost your direction in life, that's OK.

Just be careful of being seduced by them into being somebody or doing something which is not you. Now, you are prone to being seduced by mystery and glamour. Life with your partner may seem vague and confusing.

Keep your integrity intact. You may not know who you are, as your relationship and people around you dissolve and disappear, you are not on solid ground now.

Best Time for - Meditation, reflection, relationship counselling, being by the sea.
